**WoW Tips and Tricks**

**Character skills**

**PvP Tips**

**Raiding skills**

## >>>>WoW Gold Team ---> WoW Skills--->Getting WoW Gold Tips <<<<

**WoW Skills** are grouped into several categories: professions, secondary skills, weapon skills, class skills, armor proficiencies, and languages. Your character's skills can be viewed on the skills tab of your character sheet. **Professions** are the major trade skills available to all classes, such as tailoring and mining. A character can only have two professions at any given time. **Secondary skills**, such as fishing and first aid, are also trade skills but have no restriction on how many can be learned. Weapon skills include all weapons that a character is able to use. Many **weapon skills** need to be learned, as your character only starts with a handful of skills he can learn. **Class skills** are determined by your character class (granted at character creation) and are an integral part of your character. **Armor skills** are known from character creation, or received from trainers or talents. Language skills are assigned at character creation and do not change.
